Accessing to Electricity Transformer in Pol-e-Moder village of Imam Sahib District of Kunduz province

Advocacy Meeting in PY6

NSDO conducted the session to discuss with Breshna's Department to figure out the problems and challenges of Pol-e-Moder village of Imam Sahib District

NSDO found out the problem faced Pol-e-Moder village of Imam Sahib District of Kunduz province and addressed the problem with Breshna's Department for figuring out and find the solution and installing the electricity transformer in target village of Imam Sahib District of Kunduz province.

Through the pursuance and referenced of advocacy meeting in PY5 conducted by NSDO on September 6, 2017 based in Kunduz province which were the people of Pol-e-Moder, line governmental departments, Civic Educators, NSDO advocacy group members, Head of CDCs and DDA were the participants of the session. The participants of this advocacy meeting raised their questions surrounding the unresolved problems and challenges of Pol-e-Moder village of Imam Sahib District of Kunduz province. The questions raised consisted of the “not having of electricity transformer in the village”.

At the result of conducting the advocacy meeting with Kunduz Electricity Department (Breshna) in PY5 – among the problems which were addressed in above by the community people – one of the problem which was not having of electricity transformer in Pol-e-Moder village of Imam Sahib District of Kunduz province. Fortunately NSDO achieved its objective in terms of solving the problem through several follow – up meetings with Kunduz Breshna resulted to get the electricity transformer for the community people of Pol-e-Moder village Imam Sahib District of Kunduz province.

The Electricity Transformer is at the access of the community people right now and operating 24 hours for the time being.
